

Parque Industrial El Brizo
C/ Endrino 129-130
47162 Aldeamayor de San Martin
(Valladolid) - Spain

Since 2008 General Driver Motor has been giving solutions to the European in the field of servo systems and numerical control.

Based on integrity and honesty as the foundation of our values, GDM is positioned as a leader for the excellence and quality of our service.

We believe in teamwork and continuous improvement with a positive attitude.

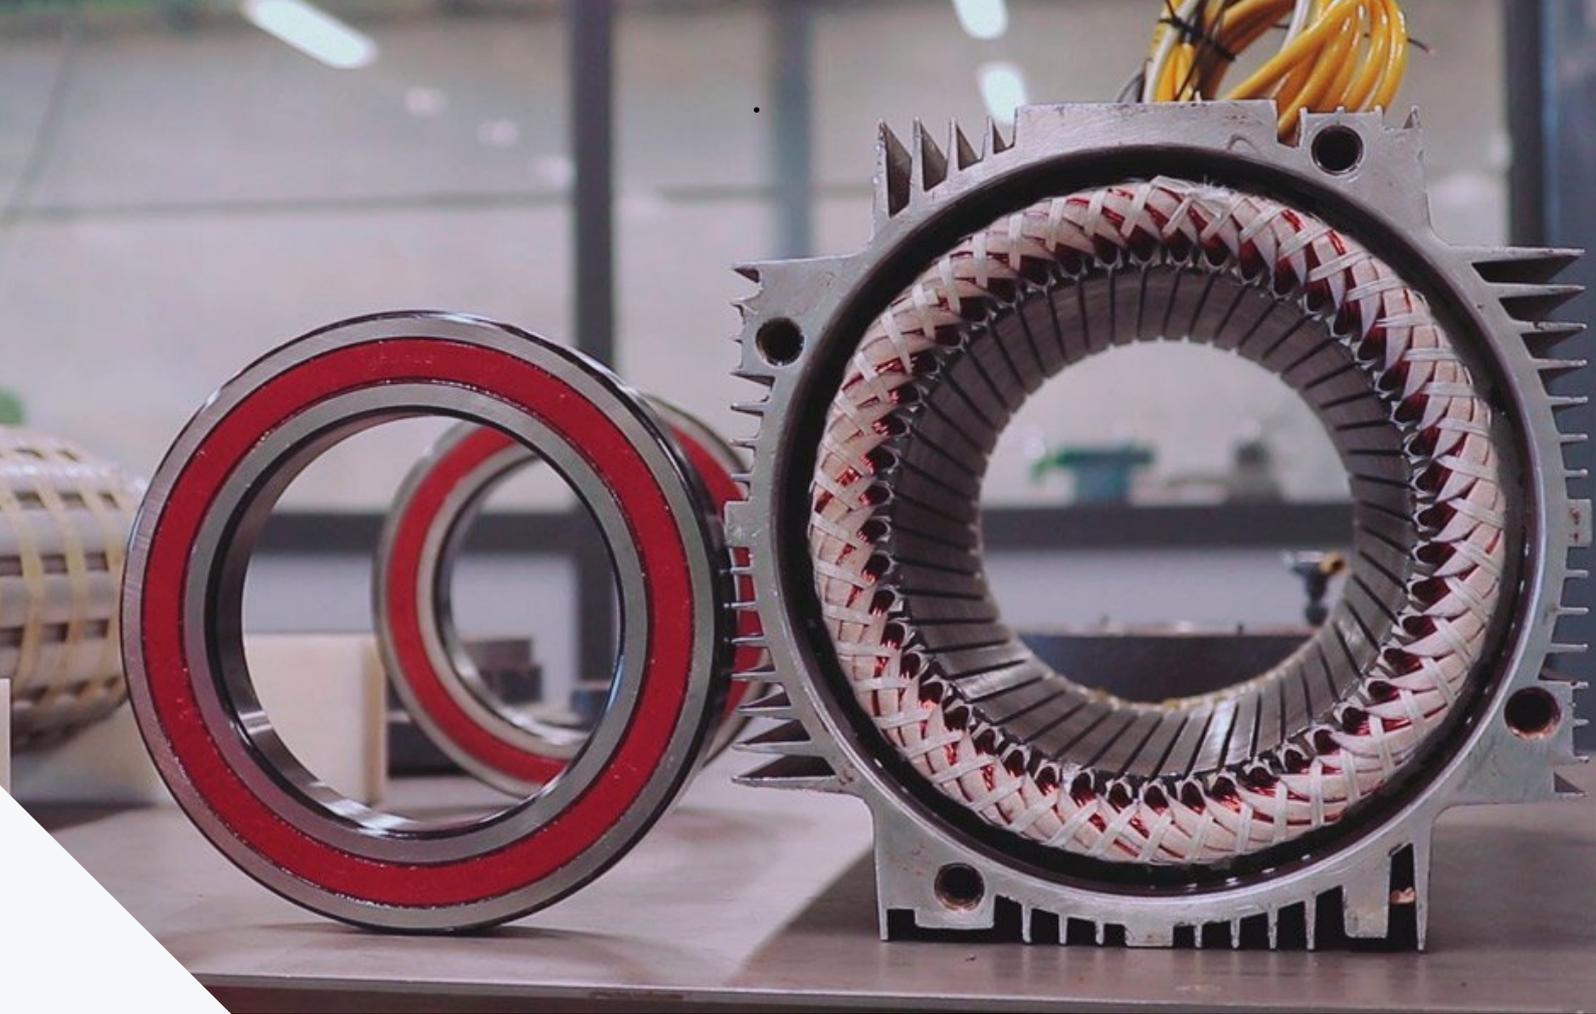

GDM offers you transparency and clarity of management in all our activities. Always committed to service and a work well done.

Industrial electronic equipments that are repaired, refurbished, reconditioned and remanufactured, are carried out a thorough examintaiton.

At **GDM** we complete tests on equipment to verify correct operation.

We also provide the following services preventive-predictive maintenance to avoid future breakdowns.

We have more than 500 servomotors and electronic devices for immediate replacement.

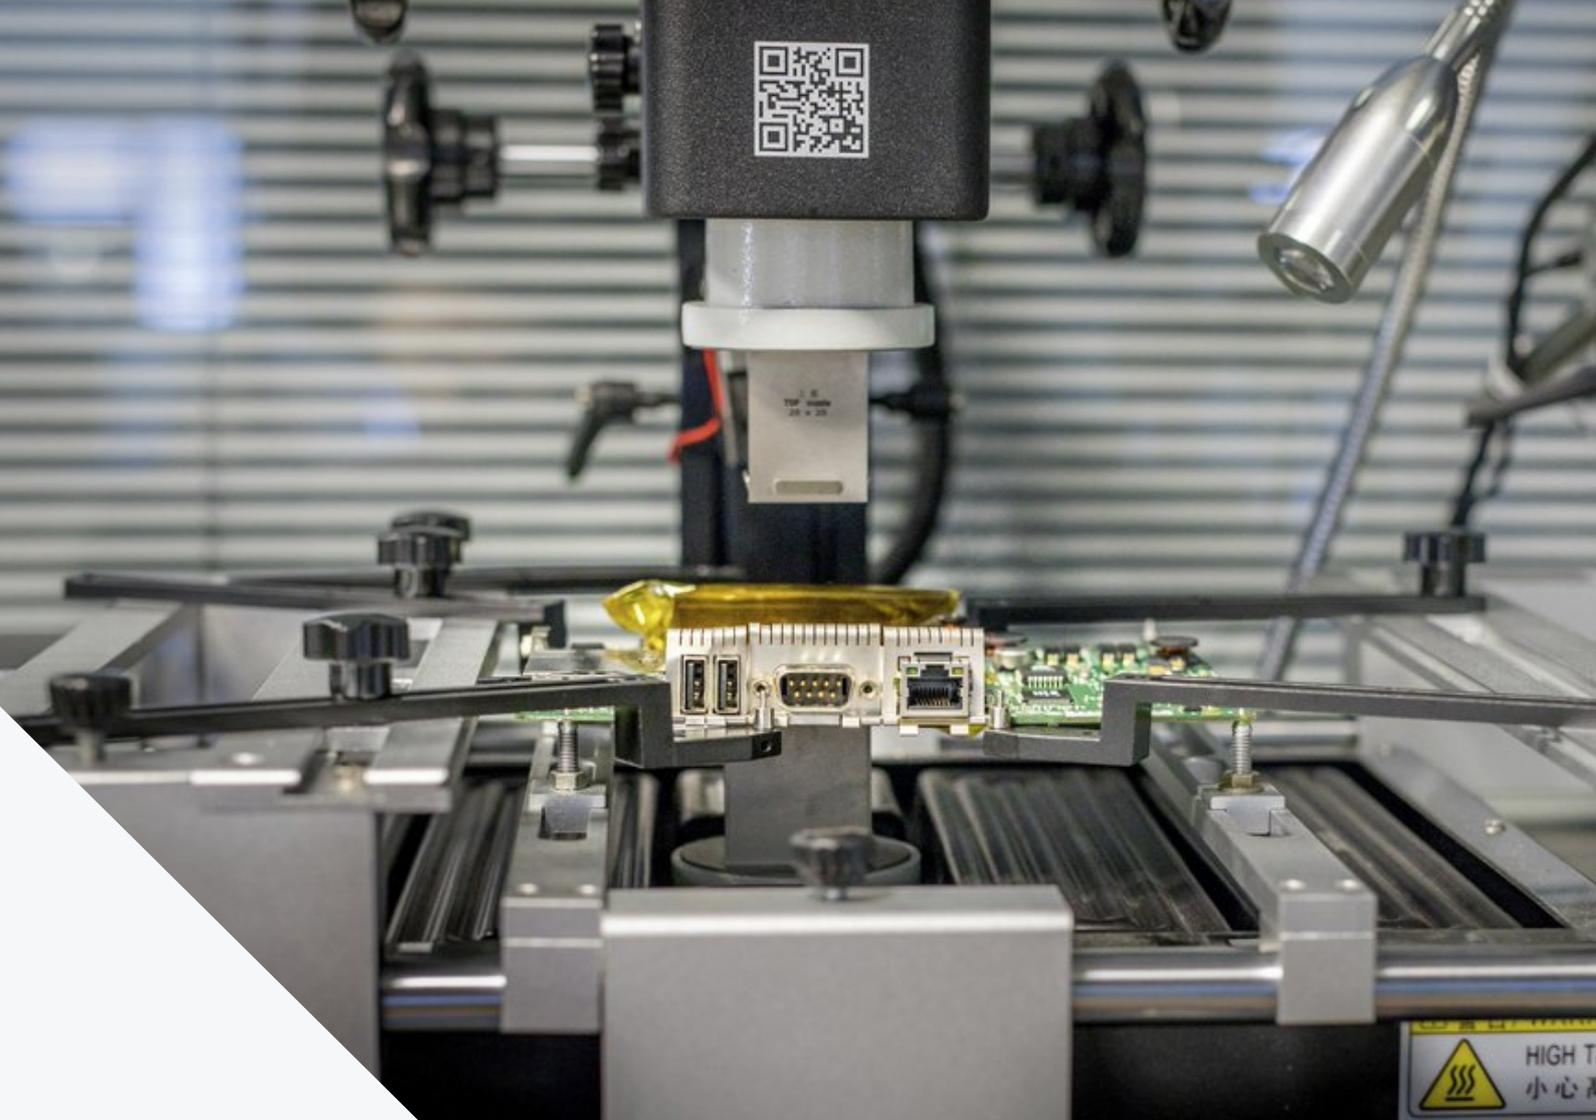

At **GDM** we repair spindles, electrospindles, spindles, high speed motors and special motors.

PREVENTIVE MAINTENANCE

We recommend regular preventive maintenance to ensure an optimal lifetime of your equipment. Customers all over the world choose **General Driver Motor** because of the reliability and confidence that we offer.

- Feedback devices: OEM replacement encoders.
- Resolver testing and diagnostic analysis.
- Hall Effect and tacho testing and diagnostics.
- Multiple instrumentation station - servo motor testing - "electronic commutation signal alignment.
- Brushless-servomotor test benches with torque transducer Nm.
- Temperature, vibration, static balancing and dynamic balancing detectors.
- SCHENCK SMART BALANCER Test
- Insulation test - stator winding Baker ST 203.
- Dielectric test TecnoLab RD 6.
- "Rotor" magnetic field test and measurement.

At **GDM** we are able to check, repair and remanufacture products of almost any Brand.

We serve all sectors industry, machine tools, aerospace tool, aeronautics, automotive, robotics, printing, food industry, glass industry, textile, plastics, automation, etc.

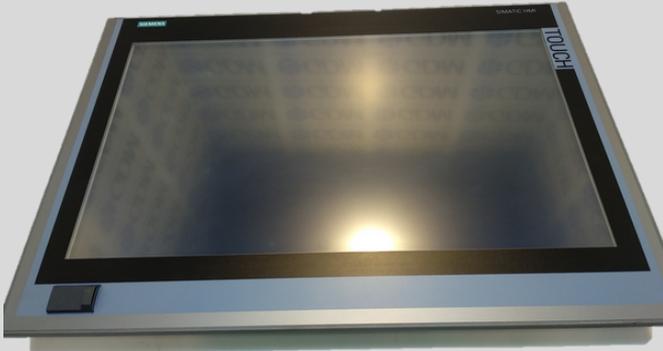

We have CNC test benches for CNC for machine tools.

More than 140 test benches.
Final test verification

**We specialise in the
repair, remanufacturing
of: servomotors, spindles,
electrospindles.**

**•We repair screens
and PLC.**

**We repair and recondition drivers,
variators, inverters and starters.**

At **GDM** we repair practically of the existing brands, among them:

ABB	FISCHER	MULTIVAC
AEG	FRANZ KESSLER	OKUMA
ALLEN-BRADLEY	FUJI	OMLAT
MADA	GAMFIOR	OMRON
AMK	GEFRAN	ORIENTAL MOTOR
AROS ELECTRONICS	GMN	PACIFIC SCIENTIFIC
AXOR	HEIDENHAIN	PARKER
BALDOR MOTORS	HELLER	PHOENIX CONTACT
BAUMÜLLER	HITACHI	RELIANCE
BAUTZ	HSD MECHATRONICS	SANMOTION
BECKHOFF	IBAG	SANYO DENKI
BEIJER ELECTRONICS	INDRAMAT	SCHENCK
BERGER LAHR	INFRANOR	SCHNEIDER ELECTRIC
BOSCH	KAWASAKI	SEIDEL ENGINES
CHIRON	KEB	SEW EURODRIVE
CINCINNATI MILACRON	KEBA	SHARP
CONTROL TECHNIQUES	KESSLER	SIEMENS
DAEWOO	KOLLMORGEN	SPRECHER + SCHUH
DANAHER MOTION	KUKA	STÄUBLI
DANFOSS	LAFERT MOTORS	STOBER
DEMAG	LAMBDA	SUMITOMO ELECTRIC
DUNKERMOTOREN	LAUER	TELEMECANIQUE
ENDRESS +HAUSER	LENZE	VACON
ELAU	MAGNETEK	VEM
ELMO	MANNESMANN	VICKERS
ELTE	INFRANOR MAVILOR	VOUMARD
EUROTHERM	MITSUBISHI	WARNER ELECTRIC
EXLAR	MODICON PLC	WEISS
FANUC	MOOG	WESTINGHOUSE
FESTO	MORI SEIKI	YASKAWA
